1

To mount the track adaptor into the track system, first check that the selector knob **A** is at OFF position and the adaptor lock **B** is disengaged.

2

When installing the adaptor into the track, ensure that it is orientated correctly.

3

Rotate adaptor lock **B** clockwise 90° to connect the adaptor to the neutral circuit.

4

Rotate selector knob **A** to the position of desired circuit.

5 Select the power according to the table

8W	200mA	<input type="radio"/>	<input type="radio"/>
10W	250mA	<input checked="" type="radio"/>	<input type="radio"/>
12W	350mA	<input checked="" type="radio"/>	<input checked="" type="radio"/>

The default setting is 12W
